

MONSTER GO

MONSTER GO

MG3 3x3 magnetic cube

Magnets to boost cubing learning

Cubing is so popular around the world. Do you know why?

1 Comprehensive – Intellectual development

Concentration

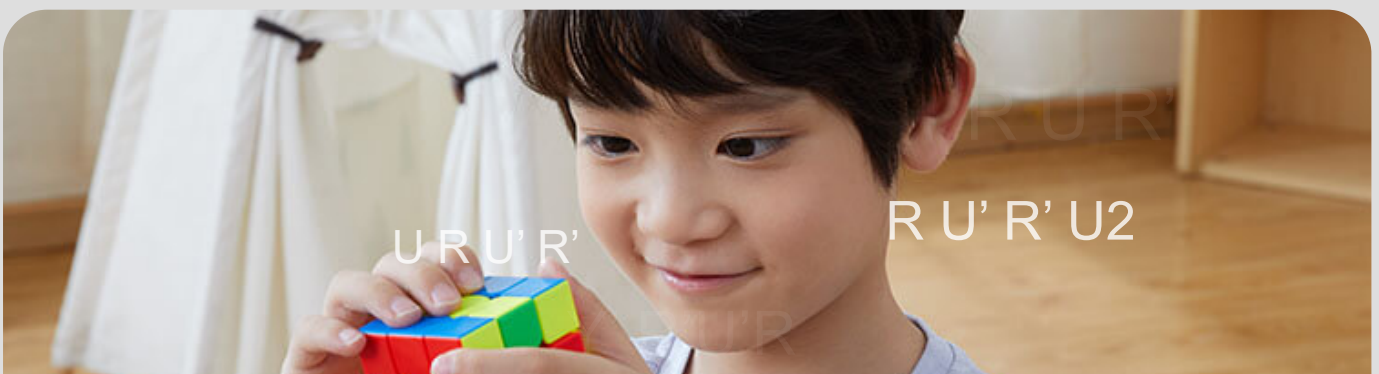

Hand-brain collaboration

Sense of space

Logical thinking

2 Infinity – Explore more

With 4.3×10^{19} combinations, the more you try the more joys you can get.

3 Long-Term – Skills gains

A quick start, a puzzle skill you won't forget

Learn cubing with ease, enjoy the fun of enlightenments.

The cube seems simple, but learning to solve it is a test of true mathematical abilities such as space, logic, abstraction, etc. If parents taught in a wrong way, children would be frustrated and they would give up soon, and both parents and children would waste their time in vain.

To adapt to the cognitive development of young children, Monster Go's cube is designed innovatively step-by-step, with each model focusing on one principle aspect. They allow children to explore freely in the cognitive comfort zone, and learn cubing with ease and solve puzzles with amusement.

Step by Step Grow up easily

"To tell you the secret: The magnetic force is an invisible magic!"

48 magnets, keeping up with your wit.

Magnetism, is just like a magical accelerator
It helps the cube catch up with your
quick-witted mind every time you turn.

Speed up your hands and grow
your wisdom in every battle!

Ready to be a Speedcuber!

Efficient
intelligent training.

Quicken your hands
and your mind
at the same time.

The sky
is the limit

Smooth like sliding! Experiencing the best handfeels!

Small but powerful.

Light and faster.

With 48 magnets,
still feels light,
still feels better turnin

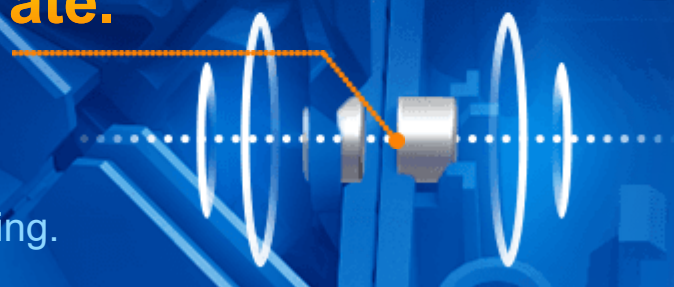

Magnets won't slow you down!

Every magnet
is perfectly placed.
Don't worry, it won't fall!

Fast and accurate.

Non-artificial glue,
more accurate and
faster magnetic positioning.

Hey! I am Dr. AI

You can learn to solve a cube faster with me!

Traditional paper guides and video tutorials cannot show 4.3×10^{19} combinations.

The guides cannot demonstrate so many combinations.

Without any progress, kids would be frustrated.

A green hand adult cannot teach their kids.

Mess it up in half way? Fail to solve? Don't worry!
We have our dedicated **Dr. AI** teaching system, letting you follow through and solve step by step.

Efficient tutorial
with 3D animations.

Real-Time cube status.

Solve it through perfect
paths.

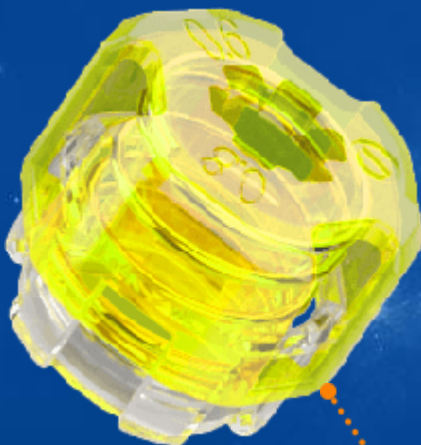

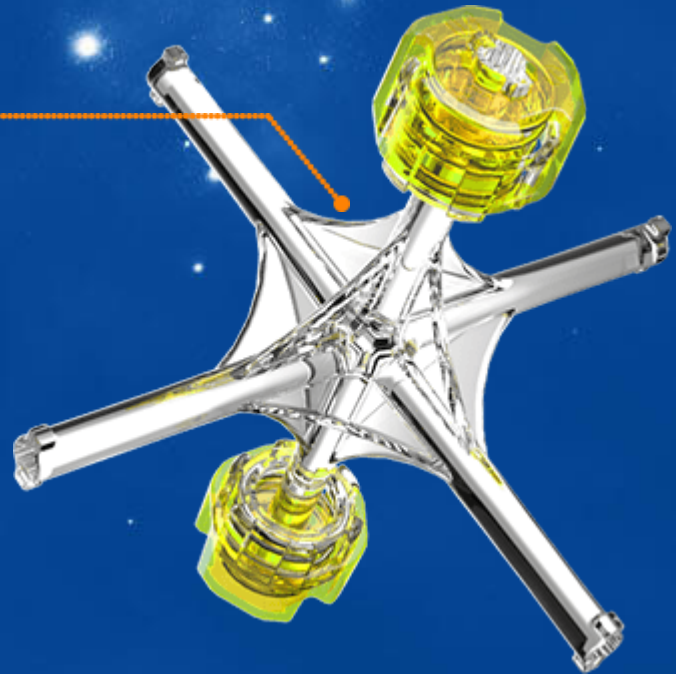

Crack proof and strong

3 patented technologies.

light

**Light and endurable.
The best handfeels.**

Integrated designs,
